DYNAFORCE® INDOOR FLOORING SYSTEM

DYNAFORCE®: CONTAINED ENERGY THAT WILL PERFORM INTO THE NEXT DECADE AND BEYOND

DYNAFORCE®

We customize each system to your needs. Choose...

- Your system thickness, from 6 mm to 16 mm, for desired performance.
- The surface texture and wear layer you need, from tennis to track.
- The right warranty for your investment.
- Customized color, logo and layout choices.

DynaForce® delivers unmatched durability through its incredibly strong top layer that will not separate over time. And it can be refinished without costly removal or replacement.

Seamless, self leveling 2 mm polyurethane wear layer performs like wood, with optimum slide and slip resistance and resilience. The next generation in polyurethane technology, DynaForce's resin is low maintenance, durable, anti-bacterial, impervious and virtually indestructible.

Optional fiberglass reinforcing layer for greater dimensional strength.

Dual-Durometer technology combines special polyurethane layer with technologically advanced base-mat underlay for greater durability and resistant wear. The result: a more predictable floor surface with superior deformation recovery and even distribution of point loads.

Bring on the sports, aerobics, equipment, banquets, street shoes...

- Low life-cycle cost due to ease of refinishing – no removal or replacement necessary.
- Available in a range of shock absorption levels, DynaForce's special recycled rubber pad delivers better, more consistent shock absorption and is eligible for LEED points.
- Specifically designed comfort layer returns maximum dimensional memory and load capacity.
- Special UV-cured polyurethane finish.
